

# Manitoba Government Job Opportunities

## **Technical and Public Works Consultant**

**Regular/Full-Time**

**Manitoba Municipal and Northern Relations**

**Northern Region, Northern Affairs**

**The Pas MB, Thompson MB**

**Advertisement Number: 42700**

**Salary Range: \$72,664.00 - \$93,620.00 per year plus remoteness allowance, if applicable**

**Closing Date: May 12, 2024**

*The Manitoba government recognizes the importance of building an exemplary public service reflective of the citizens it serves, where diverse abilities, backgrounds, cultures, identities, languages and perspectives drives a high standard of service and innovation. The Manitoba government supports equitable employment practices and promotes representation of designated groups (women, Indigenous people, persons with disabilities, visible minorities).*

*This is a preference competition. All applicants are encouraged to apply, however first consideration for this competition will be given to Indigenous people. Applicants are requested to self-declare at the time of application.*

*An eligibility list may be created for similar positions and will remain in effect for 12 months.*

**To be considered for this competition you must submit your Resume and the Application Screening Form (ASF). The selection board may rely only on information provided in this ASF form to determine whether a candidate will be invited for further assessment. Note: You are not required to submit a cover letter, but may be asked to submit references, or other documentation at a later point if invited for further consideration.**

Municipal and Northern Relations is seeking a qualified individual to fill a Technical and Public Works Consultant position located in Thompson/The Pas. The Manitoba government has a comprehensive benefits package which includes extended health care, health spending account, dental care, vision care, long term disability insurance, group life insurance, maternity/paternity leave, family related leave, and a defined pension plan (some pension plans allow for portability between the Civil Service Superannuation Board and employers).

**Conditions of Employment:**

- Must be legally entitled to work in Canada.
- Candidates who possess a Diploma in Civil Engineering Technology must be willing and able to obtain their Certified Engineering Technologist (CET) designation within 12 months of the start date or combination of education and experience.
- Must be able and available to be on call for emergencies as required.
- Must be able to travel to remote communities by vehicle, boat, small aircraft, all-terrain vehicle and/or on winter roads.
- Must be able to work overtime including evening and/or weekends if and when required.

**Qualifications:**

**Essential:**

- Diploma in Civil Engineering Technology, preferable in the Environmental or Municipal Discipline; a Bachelor of Science, or an Engineering degree. An acceptable equivalency may be considered.
- Knowledge of operations and maintenance of municipal infrastructure, water, wastewater systems, or solid waste management
- Experience interpreting and applying legislation related to municipal infrastructure, water, wastewater, and solid waste management, including The Public Health Act and Environment Act and related regulations.
- Strong analytical and problem-solving skills.
- Strong verbal communication skills with the ability to clearly communicate information to a variety of clients and stakeholders.
- Experience with municipal infrastructure including planning, operations, and maintenance (ex: roads, public buildings, equipment)
- Strong written communication skills with a high degree of accuracy and attention to detail
- Strong interpersonal skills including the ability to resolve conflict, build relationships and interact effectively with internal and external clients.
- Experience educating and consulting internal and external stakeholders to develop competency and understanding.
- Ability to take initiative and perform tasks independently while working under minimal supervision.

**Desired:**

- Knowledge of Workplace Health & Safety and Risk Management policies and procedures
- Ability to read and interpret construction blueprints or drawings.

**Duties:**

The Technical and Public Works Consultant is responsible to consult with, assist and provide guidance to

community councils and their staff in the development and maintenance of municipal infrastructure consistent with community development plans.
