Professional Engineering Opportunities in Project Management

Manitoba Hydro is consistently recognized as one of Manitoba's Top Employers!

Manitoba Hydro is a leader among energy companies in North America, recognized for providing highly reliable service and exceptional customer satisfaction. Join our team of Manitoba's best as we continue to build a company that supports innovation, commitment and customer service.

Great Benefits

- Competitive salary and benefits package.
- Defined-benefit pension plan.
- Nine-day work cycle which normally results in every other Monday off, providing for a balanced approach to work, family life and community.
- Flex-time and partially remote work schedule (providing the option to work remotely 3 days per 2 week period), depending on nature of work, operational requirements and work location.

Please note, this Expression of Interest is being reposted due to the addition of the HVDC Modernization Project Department and to ensure all interested candidates have the opportunity to apply. All applicants who had previously applied to the November, 2023 posting are still being equally considered. If an applicant is not interested in potential opportunities in the HVDC Modernization Project Department, they can choose to decline the opportunity if invited for an interview. We sincerely appreciate all interest!

Manitoba Hydro delivers a diverse portfolio of projects to support our customers' needs. Examples of projects involving:

- Generation Assets
- Transmission Asset
- Distribution and Gas Assets
- HVDC Assets

We invite interested and qualified candidates to apply for professional engineering opportunities with a focus on project management. As a Project Engineer, you will be responsible for project related services from the pre-planning phase through to the closure for assigned projects.

The ideal candidate will possess:

- A four-year degree in Biosystems, Geosciences, Civil, Mechanical, or Electrical Engineering from a University of recognized standing.
- Membership in EGM (Engineers Geoscientists of Manitoba).
- Additional project management training or certification would be considered an asset.
- Strong organizational and leadership abilities.
- Experience related to projects associated with generation operations, equipment upgrades or unit overhauls and working knowledge of transmission, distribution, HVDC or natural gas plant operation as it relates to design, construction and commissioning activities would be considered an asset.
- Strong computer skills including experience with scheduling software, and the Microsoft Office suite of software.
- Experience in the use of SAP and P6 to oversee capital budgets and schedules would be considered an asset.
- Mature judgment and proven ability to carry out assigned duties with a minimum of direction and supervision.
- Knowledge of Manitoba Workplace Safety and Health Act and associated regulations.
- Experience in performing supervisory responsibilities such as conducting performance reviews, personal development plans, interviews, and discipline, would be considered an asset.
- Demonstrated ability in providing mature leadership and delegating authority related to planning, organizing and motivating the activities of a group of engineers and technical support staff.
- Demonstrated high degree of initiative and ability to maintain working relationships and interact effectively with others at all levels, both inside and outside the corporation.
- Demonstrated application of Project Management theory including scoping, estimating, scheduling, cost control, risk management and change control in an engineering or construction environment.
- Possess and maintain a valid Province of Manitoba Driver's Licence.

A24-059

NOTES/COMMENTS:

May be required to travel and work outside normal business hours.

Responsibilities and classification will be commensurate upon qualifications and experience.
