

EMPLOYMENT OPPORTUNITY

Closing Date: 11.10.2024

ENGINEER-IN-TRAINING PROGRAM WINNIPEG & VARIOUS LOCATIONS IN MANITOBA

Manitoba Hydro is consistently recognized as one of Manitoba's Top Employers!

Great Benefits

- Competitive salary and benefits package.
- Defined-benefit pension plan.
- Nine-day work cycle which normally results in every other Monday off, providing for a balanced approach to work, family life and community.
- Flex-time and partially remote work schedule (providing the option to work remotely 3 days per 2 week period), depending on nature of work, operational requirements and work location.

Manitoba Hydro is a leader among energy companies in North America, recognized for providing highly reliable service and exceptional customer satisfaction. Join our team of Manitoba's best as we continue to build a company that supports innovation, commitment, and customer service, while actively supporting a diverse, equitable and inclusive workplace.

We are seeking qualified Engineering graduates for our Engineer-In-Training Program, with employment to commence in 2025. Recent graduates or those graduating by April 2025 are invited to apply.

Our Program offers exciting and diverse career opportunities, allowing you to join other graduates to develop the necessary skills, knowledge and experience to transform from an academic to a professional business environment. You will be exposed to challenging assignments that will provide training towards a Professional Engineer designation.

This Program will consist of various rotation opportunities throughout Manitoba Hydro to provide you with exposure to various engineering activities over a period of approximately 24 months. While progressing through the program, you are expected to achieve your professional accreditation from Engineers Geoscientists Manitoba.

Opportunities for exposure include:

- Generation, Transmission & Distribution
- Operations & Maintenance
- Planning, Design
- Project, Asset or Construction Management
- Software Development Lifecycle
- System Architecture & Design
- Operational Technologies
- Telecommunications
- Manitoba Hydro's world-renowned HVDC System
- High Voltage Laboratory
- Integrated Resource Planning
- Cyber Security & Enterprise Architecture

Qualifications:

- Bachelor's Degree in Civil, Computer, Electrical, Mechanical, or Biosystems Engineering from a university of recognized standing.
- Possess a valid Class 5 Manitoba Driver's Licence.

Salary Range

Starting salary will be commensurate with qualifications and experience. The range for the classification is \$31.64-\$44.52 Hourly, \$60,626.80-\$85,308.60 Annually.

A24-210

Apply Now!

When you apply, you will be prompted to complete a survey. All applications must include the following information, attached to your online profile:

- Current resume and cover letter (pdf preferred)
- Copy of official post-secondary transcripts (pdf preferred)

Those who do not provide a response to the survey or do not upload their attachments, may not be considered.

The email address you submit in your application profile will be used as the main form of correspondence throughout the recruitment process. Please monitor your email inbox on a regular basis.
