

PRE-GRADUATION COURSE MAPPING & CREDIT QUESTIONS

Please complete the following in order to obtain pre-graduation credit towards your engineering or geoscientific degree.

You must be a student member or Intern in good standing with Engineers Geoscientists Manitoba in order to earn Pre-Graduation Credit towards the Pre-Registration Program.

Name: _____ **Member #** _____ (on your card)

Start date of earliest report in which pre graduation credit is/was sought: _____ (d/m/y)

The Pre-Graduation Work Experience must have a professional member taking responsibility. If your direct supervisor is not a professional member of the Association, you must find a mentor who is. In this case both your direct supervisor and mentor must submit comments on your Pre-Graduation report.

IMPORTANT: Please contact your supervisor and mentor independently. Do not rely on Engineers Geoscientists Manitoba to contact them.

Follow the instructions and send this form to Sharon Sankar, Director of Admissions at ssankar@EngGeoMb.ca

CO-OP STUDENT

Was this experience earned through the Co-op Program? Yes No

I authorize Engineers Geoscientists Manitoba to contact the Co-op Office to verify that I have earned the co-op experience while participating as a co-op student Yes No

If your answer is No, you will not be eligible to obtain Pre-Graduation credit.

Please provide your registration history with your name on the documentation and check off your first work term and sent it to ssankar@EngGeoMb.ca in PDF.

NON CO-OP STUDENT

Did you complete 58 Credit Hours towards an engineering/geoscience degree prior to starting your work experience? Yes No

If your answer is No, your experience is ineligible. The Experience Review Committee can only look at Pre-Graduation Experience after 58 credit hours.

Please provide your registration history with your name on the documentation and check off your first 58 credit hours and sent it to ssankar@EngGeoMb.ca in PDF.
