

## Heritage Committee

D.G. Chapman, P.Eng. FEC (Chair)  
J.D. Bamburak, P.Geo.  
L.A. Bateman, P.Eng. FEC  
A.M. Brawerman, EIT  
G.N. Cook, P.Eng.  
D.A. Ennis, P.Eng. FEC  
M.J. Gregoire, P.Eng.

R.M. Jones, P.Eng.  
A.N. Kempan, P.Eng. FEC  
W.C. Kennedy, P.Eng.  
S.M. Kovnats, EIT  
A.K. Letts, P.Eng.  
A.D. Myska, P.Eng.  
W. Pyl, P.Eng.

The mandate of the committee is to research, document and archive the heritage of the association, its members and the results and impact of the work of its members.

The committee has continued to be very active over the past year, building the foundation of a Wiki-style web site focused on the work of our members worldwide. We expect the site to go live this fall, with several detailed articles and many more introductory articles. Our hope is that there are people within our membership and readers of the Keystone Professional who can expand and revise our information. We are interested in the past but also hope that we can capture ongoing work (the heritage of the future).

To facilitate the creation of further articles the committee will be using Member-in-Training volunteers to work on literature searches (hard copy and electronic) in areas where the committee lacks expertise. This work will be mentored and eligible for volunteer credit.

In the past year several committee members took part in a field trip to the site (on the Little Saskatchewan River, formerly the Minnedosa River) of the first hydro-electric plant in the province. We hope to incorporate similar field trips part into our annual meeting schedule.

We are very interested in continuing the documentation of our heritage. If you have photos, documents, artifacts, or information about our members, past and present, or the projects they worked on, we would like to hear from you. If you have an interest in committee please contact the office or email [heritage@apegm.mb.ca](mailto:heritage@apegm.mb.ca).
