

2025 COUNCIL ELECTION PLATFORM

Nnamdi Uzoh, P.Eng.

Candidate nominated by Council

EDUCATION:	<p>Bachelor of Chemical Engineering, Federal University of Technology, Nigeria, 2011</p> <p>Master of Chemical Engineering, Federal University of Technology, Nigeria, 2018</p>
ENGINEERS GEOSCIENTISTS MANITOBA ACTIVITIES:	<p>Professional Engineer of Engineers Geoscientists Manitoba, member 2024 - present</p> <p>Nigerian Members Chapter, Member</p> <ul style="list-style-type: none"> – Chair of Sponsorship, Partnership, Scholarship, and Academic Outreach Committee, 2024-present – Member of 2025 AGM Planning Committee
OTHER ENGINEERING/ GEOSCIENCE ACTIVITIES:	<p>Career mentor for internationally educated engineers pursuing licensure in Manitoba</p> <p>Speaker and content creator on immigrant integration and EIT professional development</p>
EMPLOYERS SINCE GRADUATION:	<p>Government of Manitoba (Manitoba Water Services Board), Brandon, MB, Maintenance Engineer, Oct 2024 - present</p> <p>PepsiCo Canada, Winnipeg, MB, Field Service Technician, Jan 2024-Oct 2024</p> <p>Corrosion Service Company Ltd, Winnipeg, MB, Technical Assistant, May 2023-Dec 2023</p> <p>Future Transfer Co. Inc., Winnipeg, MB, Formulation/Water Technician, Feb 2023-May 2023</p> <p>Tecon Oil Service Limited, Nigeria, Project Engineer, June 2019-Jan 2023</p>

PLATFORM PART 1 – EXPRESSION OF INTEREST

Please tell us why you are interested in serving on Council and what you bring to the role.

I am deeply interested in serving on Council because I believe in the power of professional self-regulation to protect the public, advance engineering practice, and support the growth of inclusive professional communities. As a professional engineer with extensive experience in both Canada and Nigeria, I bring a unique global perspective on regulatory compliance, public safety, and engineering excellence.

Over the last decade, I have led complex technical initiatives in water treatment systems, oil and gas operations, and environmental remediation. I have worked across public and private sectors and currently serve as a Maintenance Engineer with the Government of Manitoba's Water Services Board. My

2025 COUNCIL ELECTION PLATFORM

exposure to diverse sectors, combined with strong project management, quality control, and safety expertise, to offer practical, solution-oriented insights to Council.

I am also passionate about mentorship and professional integration for internationally trained engineers. Having successfully navigated the licensure process myself, I wish to contribute to policy and governance that foster equitable access to professional growth for all members.

PLATFORM PART 2 – THE PUBLIC OF MANITOBA

The Association governs and regulates the professions in the public interest. What is, or what should, Council be doing to ensure that its governance is in the public interest and why?

Council should ensure that its governance is grounded in transparency, equity, and proactive engagement with both the public and the professions it regulates. This includes establishing strong regulatory policies, ensuring continuous professional development, and enforcing standards that protect public safety and environmental integrity. Given the evolving technological landscape and increasing diversity in the profession, Council must also ensure that governance reflects inclusive practices and accessible pathways for licensure.

PLATFORM PART 3 – THE ASSOCIATION

Council sets the expectation for the Association by defining the Ends. What is the most important End and why?

The most important End is: “Professional members and licensees practice with competence and ethical conduct.”

This End is foundational to public trust. No matter how well policies are drafted or how diverse the membership is, the core of professional regulation is ensuring that engineers and geoscientists uphold ethical and technically sound standards. Competence and ethics safeguard lives, infrastructure, and the environment. As someone involved in water infrastructure and public systems, I understand first-hand how critical these attributes are to public well-being.

PLATFORM PART 4 – THE COUNCIL

Council sets out the core characteristics of what it considers to be a good councillor in GP-6 Councillor Roles and Job Description. What is the most important characteristic of a good councillor and why?

The most important characteristic of a good counselor is “strategic thinking”. Council members must look beyond daily operations to make long-term decisions that will shape the future of the professions. Strategic thinking allows councillors to assess risks, anticipate regulatory needs, and build frameworks that ensure the Association remains effective, inclusive, and aligned with global best practices. My background in project execution, regulatory interpretation, and future focused maintenance planning equips me with the mindset needed to contribute at this strategic level.
