

## **Senior Engineer**

### City of Regina Job Posting #5063

Reporting to the Manager, Environmental Services, this position will provide engineering services related to contaminated sites in the City of Regina. Work will include oversight of environmental investigations, development of corrective actions and implementation of corrective actions for contaminated sites within the city. The Senior Engineer will also oversee environmental response activities for the City of Regina. The work is required to meet regulatory obligations under the Environmental Management and Protection Act 2010 (EMPA 2010) as they relate to contaminated sites and to reduce risk exposure related to contaminated sites. The Senior Engineer will be the liaison with the Environmental Protection Branch of the Ministry of Environment and will also lead the development and implementation of a Brownfield strategy for the City of Regina.

**Applications are being accepted until May 30, 2022.**
