Providing a wide range of services to over half of all Manitobans, The City of Winnipeg is one of the largest employers in Manitoba. We provide a comprehensive range of benefits and career opportunities to our employees. These include competitive salaries, employer-paid benefits, dental and vision care, pension plans, and maternity/parental leave programs. Additionally, we offer education, training, and staff development opportunities to ensure that our employees are equipped with the necessary skills to advance in their careers.

Our Benefits web page provides detailed information about the benefits we offer, and we encourage you to visit it for further information at [City of Winnipeg Benefits](#). We take pride in fostering a [respectful](#), [diverse](#), safe, and healthy workplace where our employees can thrive and achieve their full potential.

Flexible work arrangements, which may include flexible hours, remote work, or a hybrid of remote work may be available; subject to review and approval. Please note that Employees who are approved to work remotely are responsible for and must demonstrate that they are available to return to their Designated Work Location and/or other work location to attend meetings or attend other tasks that occur in person.

The City is committed to attracting and retaining a diverse skilled workforce that is representative and reflective of the community we serve. Applications are encouraged from equity groups that have been and continue to be underrepresented at the City; Indigenous Peoples, Women, Racialized Peoples, Persons with Disabilities, 2SLGBTQQIA+ Peoples and Newcomers are encouraged to self-declare.

Requests for Reasonable Accommodation will be accepted during the hiring process.

Preference to internal applicants may be applied.

Job Profile

Under the direction of the Branch Head – Wastewater Planning and Project Delivery, the Project Engineer carries out project management and administration for projects in wastewater collection, treatment, and administration of planning studies and/or projects of the City's Combined Sewer System Master Plan under the requirements of Environment Act Licence No. 3042. The Project Engineer is responsible for the execution, completion and implementation of capital projects, including planning, design, consultant selection, contract administration, start-up and turnover. The Project Engineer conducts detailed review and approval of deliverables from consultants and in-house resources to ensure optimization of

programs. The successful candidate is responsible for chairing project teams and advisory groups. The successful incumbent also conducts engineering studies.

As the *Project Engineer* you will:

1. Initiate and maintain control of projects in conformance with aims, goals, policies, and objectives of the organization.
2. Make effective use of people and resources required for and involved in projects.
3. Ensure that projects will satisfy the technical, financial and organizational needs for which it was undertaken.
4. Administer all aspects of the capital budget for a project and ensure that projects are completed within the approved budget.
5. Administer project schedules.
6. Ensure proper collection and dissemination of project information.
7. Identify, analyze and respond to project risks.
8. Acquire goods and services from outside organizations as necessary to complete the project.
9. Obtain required approvals/permits/licenses from other City and Provincial Departments, as required.
10. Provide engineering services for the upgrading of existing and/or the construction of new facilities and equipment, and other services, as required.
11. Ensure proper collection and dissemination of project information.
12. Chair technical advisory committee meetings.
13. Administer one or more consultants on various projects.
14. Perform other related duties consistent with the classification, as required.

Your education and qualifications include:

1. Bachelor's Degree in Civil, Biosystems, or Mechanical engineering.
2. Minimum five years of related experience.
3. Demonstrated ability in project management processes and procedures,
4. including project accounting and cost management,
5. scheduling, resource management, risk management, dispute
6. avoidance and dispute resolution.
7. Knowledge in wastewater hydraulic modelling, calibration and analysis.
8. Must have strong computer skills in MS Office and MS Project.
9. Must have strong demonstrated problem solving and analytical abilities.
10. Demonstrated ability to manage multiple time constraints and prioritize workloads.
11. Demonstrated technical and non-technical verbal and written communication skills.
12. Must have strong interpersonal skills, including leadership and the ability to work in teams, facilitate teambuilding, conduct meetings and possess strong negotiation skills.
13. Ability to work independently and in a team environment.
14. Demonstrated ability to establish and maintain positive working relationships with employees at all levels of the organization, external contacts and the public, in accordance with the Respectful Workplace Standard.
15. Must be familiar with materials and methods as applied to construction of municipal services and structures.

Conditions of employment:

1. The successful applicant must maintain legal eligibility to work in Canada. If the successful applicant possesses a work permit, it is their responsibility to ensure the permit remains valid.
2. Professional Engineer designation and eligible for registration with Engineers Geoscientists Manitoba, (E.G.M.).
3. A Police Information Check satisfactory to the employer will be required from the successful candidate, at their expense.
4. Must possess and maintain a valid Class 5 Manitoba Driver's Licence.

APPLY ONLINE, including all documentation listed below:

1. Current resume (**Required**).
2. Cover letter.
3. Applications submitted without REQUIRED documentation will not be considered.

Your application documents must clearly indicate how you meet the qualifications of the position.
