

Engineer, Maintenance (40551)

Location: Rabbit Lake, SK

About Us

Rabbit Lake, located in northern Saskatchewan, has produced over 200 million pounds of uranium concentrate since its inception. The uranium mined and milled at Rabbit Lake has been used for nuclear fuel products, which utilities around the world rely on to generate safe, reliable, emissions-free nuclear power. Cameco is one of the largest global providers of the uranium fuel needed to energize a clean-air world.

The Role

Reporting to the general supervisor, maintenance, in the maintenance engineering department, your knowledge of mechanical equipment and design will be relied upon to support surface operations in a mining/milling environment.

In this role, you will:

- Solve complex technical problems using formal techniques to evaluate systems, equipment and failures
- Maximize equipment availability, reliability and performance through effective problem solving and proactive maintenance practices
- Develop and refine asset specific strategies to improve equipment health and to prevent or eliminate equipment failure
- Provide design and drafting support for new or modified site equipment, process changes, and electrical drawings
- Be required to compile data and prepare technical reports or coordinates technical reporting as required for regulatory submission

Required:

- B. Eng or Bachelors Degree in Applied Science
- Four to eight years of relevant industry experience
- Equivalent combination of education and work experience will also be considered
- Professional Engineer (P. Eng) designation
- Eligible for registration with the Association of Professional Engineers and Geoscientists of Saskatchewan (APEGS)
- Strong communication and problem-solving skills
- Work a rotational schedule and commute to site by aircraft

Recommended:

- Bachelor's degree in mechanical or industrial engineering
- May consider a mechanical technologist background
- Exposure to predictive maintenance techniques and technologies
- Experience in a mining/milling environment
- Experience with computerized maintenance management system, preference for SAP experience
- Experience with planning and scheduling activities
- Project Management Professional (PMP Certification)

Conditions of Employment:

- Substance Test

Cameco is proud to offer a competitive total reward package which includes:

- Competitive compensation program with base and variable pay
- Flexible health, drug, dental, and vision plan with a health spending and personal spending account
- Fixed benefits including employee and dependant life, AD&D, disability benefits and paid vacation leave
- Employee & Family Assistance Programs
- RRSP and RPP matching program
- Career development opportunities
- Relocation costs

Cameco is an employment equity employer and aims to achieve gender parity, and as such, preference will be given to qualified members of equity groups. We are strengthened by the diverse backgrounds of experiences and encourage applicants with various levels of expertise to apply, as equivalent combination of education and work experience are considered.

Disclaimer: This information is presented as the company's good faith and reasonable estimate of the total rewards provided for this position. The compensation offered to the successful candidate will be based on the individual's education, skills and experience, as well as internal equity considerations.
